

HOW WE WORK · THE BUZZOZO WAY

Try everything free. Stay because it works.

Most agencies ask for a contract before proving anything. We flipped the whole model: your first 14 days are free, complete and real, a working website, live lead capture, and hard evidence of what we'd do for your business. This short guide shows exactly how it works, day by day, pound by pound.

YOUR FIRST 14 DAYS

What lands, and when

From the moment you say go, things start arriving. Here's the honest timeline our trial clients experience:

48h

Your AI Visibility Score arrives

A short video showing exactly what ChatGPT, Gemini and Google say when customers ask about your trade in your area. Most owners are genuinely shocked by what they hear, and by who's being recommended instead of them.

Days

Your trial website goes live

Not a mock-up: a real, fast, modern website designed for your business, live on our 100% renewable hosting with SSL. Judge us by the work in front of you, not a portfolio of someone else's.

Wk 1

Lead capture switches on

Missed-call text-back rescues every unanswered call, and review automation starts turning happy customers into public 5-star proof. Most businesses capture their first would-have-been-lost lead within days.

D14

You decide, with zero pressure

Love it? Pick a plan and everything stays live and keeps growing. Not for you? Walk away owing nothing, no card was ever taken. Want the website without a plan? A one-off buyout can be agreed.
